

Abstract:

An adhesive sheet strip for a bond which is redetachable without residue or destruction by extensive stretching in the bond plane, having a pressure sensitive adhesive based on styrene block copolymers, wherein the pressure sensitive adhesive comprises an acid-modified and/or acid anhydride-modified elastomer.

1. An adhesive sheet strip for a bond which is redetachable without residue or destruction by extensive stretching in the bond plane, having a pressure sensitive adhesive based on styrene block copolymers, wherein the pressure sensitive adhesive comprises an acid-modified and/or acid anhydride-modified elastomer.
